Spring Plungers • with collar and ball, front slot 22075.0604

Product Description

Spring plungers can be used for locating or for applying pressure, as a detent or for ejection. This spring plunger is characterised by the collar with front slot. This makes it suitable for applications that require a flat surface when screwed in.

Material

Body

· Thermoplastic POM, blue

· Stainless steel, hardened

Spring

· Stainless steel

More information

Notes
