

## Index Plungers Compact • with hexagon collar and locking

### 22110.0229

#### Product Description

Index plungers are used for indexing bores.  
Types with / without lock have the same building height.  
Due to a thread recess the index plungers can be completely screwed in.

#### Material

##### Body

- Stainless steel 1.4305

##### Locking pin

- Stainless steel 1.4305, nickel-plated

##### Knob

- Thermoplastic PA 6, black, dull

#### Assembly

The screw length can be adapted by distance collars (EH 22120.).

#### Operation

The knob is pulled-out, turned 90° and secured by a notched catch (when locking pin should not overhang).

#### More information

#### Notes

Knob not removable.  
Lock nuts have to be purchased separately.

#### Further products

- Mounting Blocks, for index bolts and index plungers, die-cast
- Locating Bushings, for index bolts and index plungers
- Distance Collars, for index plungers
