

Index Plungers • with rapid locking head
22122.0205

Product Description

Index plungers are used for indexing bores.

Material

Body

- Steel, blackened

Press button

- Thermoplastic POM, red

Locking pin

- Steel, hardened

Knob

- Thermoplastic PA 6, black-grey, matt

Assembly

The screw length can be adapted by distance collars for index plungers (EH 22120.).

Operation

The locking pin is drawn in and locked by pulling the knob. The projecting red press button indicates the locking position (locking pin drawn in). Pushing the red press button causes the locking pin to jump back into the locking position.

More information

Notes

Knob not removable.

Lock nuts have to be purchased separately.
