Lateral Plungers • with plastic spring and pin 22150.0206

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

Material

Spring

plastic

Pin

• Steel, case-hardened, blackened

Assembly

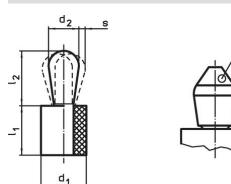

It is recommended to moisten the body. Installation by pressing in. Formula for calculating the center distance for the mounting hole: $I_0 = z/2 + w + x$, I₀ = center distance, y = workpiece height, w = workpiece length, x = coordinate dimension, s = stroke, z = stop diameter Calculation dimension x: y greater than or equal to $I_2 - d_2/2$, then $x = d_2/2 - s$ or y smaller than $I_2 - d_2/2$, then $x = d_2/2 - s - [(l_2 - d_2/2 - y) * 0,123]$

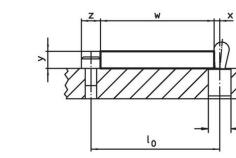

Characteristic

D H8

Version heavy spring load = green spring

Drawing

*some sizes (see chart) have a deviating pin shape

Compliance

RoHS compliant

Compliant according to Directive 2011/65/EU and Directive 2015/863.

Does not contain SVHC substances

No SVHC substances with more than 0.1% w/w contained - SVHC list [REACH] as of 23.01.2024.

Does not contain Proposition 65 substances

No Proposition 65 substances included.
