

Lateral Plungers • with thread, without seal, with female thread

22150.1350

Product Description

To be used for positioning and applying pressure, e.g. during painting and sandblasting.

Material

Body

- Steel, zinc-plated

Threaded washer

- Steel, blackened

Spring

- Stainless steel

Assembly

Formula for calculating the center distance for the mounting hole:

$$l_0 = z/2 + w + x,$$

l_0 = center distance,

y = workpiece height,

w = workpiece length,

x = stroke,

z = stop diameter

Calculation dimension x for workpieces:

$$x = d_2/2 - s$$

Lateral plungers are installed by screwing in by means of a mounting tool.

Characteristic

Version light spring load = spring from stainless steel

More information

Notes

Individual set screws can be screwed in the plate with threaded hole.

Application example

Compliance

RoHS compliant

Contains lead - compliant according to exceptions 6a / 6b / 6c.

Contains SVHC substances >0,1% w/w

Contains lead - SVHC list [REACH] as of 23.01.2024.

Contains Proposition 65 substances

Lead can cause cancer and reproductive harm from exposure
