# Disc-Type Handwheels • light metal 24600.0210

### **Product Description**

There are gripping indentations on the rear sides.

For all handwheels, the hub is machined, rim is turned and mirror-finished on all sides. The unmachined raw surfaces have been blasted clean. Together with their mirror-polished rim, these handwheels therefore present a finish which generally does not require additional lacquering.

#### **Material**

#### Axle part

• Steel, zinc-plated by galvanization

#### Handwheel

· Aluminium permanent-mould casting

#### Cylindrical handle EH 24530

 DIN 7708 - thermosetting plastic (PF 31), black similar to RAL 9005

#### Assembly

Shaft-end washers EH 22270. for axial fastening.

#### More information

#### **Further products**

- · Shaft-End Washers
- · Cylindrical Handles, rotating

Drawing

The orientation of the hub keyway may be different than shown in the drawing.
