

Promotional Box Dreamteam Construction • SIMPLEX soft-face mallet D80, rubber composition with "stand-up" / superplastic and PICARD mining sledge BlackTec 3027s023

Product Description

This promotional box dreamteam construction offers you two genuine construction experts: The SIMPLEX soft-face mallet D80mm (Art. 3027.280) with the insert combination of rubber composition / Superplastic is an absolute top seller in Halder's product selection. Boasting an ingenious shape, the rubber insert with "stand-up" allows the hammer to stand securely on its head and reduces the need to bend over, making it possible to work in a much more ergonomic and back-friendly manner. Ultra low-wear, impact cushioning and odourless, the proven rubber blend offers a much longer service life than a conventional rubber hammer. The superplastic insert allows for a more powerful impact force than the rubber insert. All parts can be replaced / retrofitted, which makes it highly efficient and friendly to the environment.

The PICARD mining sledge BlackTec® FS 328 (Art. 0032800-1250) has a head weight of 1,250g. It comes with an indestructible 3-component handle. Besides ensuring tremendous stability, the internal fibre-glass core also dampens vibrations. Forged from PICARD's renowned supreme-quality steel, the head is hardened and tempered with great care. Chipping and wear are thus reduced to a minimum.

Product features:

Promotional box dreamteam construction comprised of two specialists, the SIMPLEX soft-face mallet and the PICARD mining sledge BlackTec®:

- Includes the SIMPLEX soft-face mallet D80mm (Art. 3027.280) with the insert combination of rubber composition with "Stand-Up" (black, medium hard, impact cushioning, odourless, low-wear) / superplastic (white, medium hard, very durable).
- Further development of HALDER's top seller for the construction/gardening and landscaping sector: The rubber insert with "stand-up" ensures back-friendly working and reduces the need to bend over.
- All parts can be replaced / retrofitted, which makes it highly efficient and friendly to the environment.
- Complemented by the PICARD mining sledge BlackTec® FS 328 (Art. 0032800-1250) weighing 1,250g:
 - 3-component plastic handle with internal fibreglass core, low-vibration.
 - Head black powder coated, corrosion-resistant.
 - Made from alloyed PICARD special steel, carefully hardened and tempered.
 - Face ground, edges cleanly chamfered.
 - Rubberised grip surface.
