

SIMPLEX insert, 50:40 • Superplastic, white
EH 3207.

Product Description

The SIMPLEX superplastic insert (series 3207) with its hardness of approx. 65 Shore D is a medium hard insert. This white plastic insert is composed of extruded and extremely homogeneous material. Compared to injection moulded plastic inserts, it is therefore considerably more wear-resistant and durable. This special version has a head diametre of 50mm, but are built into the D40mm housing. The oversized contact surfaces provide maximum protection during the gentle processing of workpieces with sensitive surfaces without the risk of scratching through the housing.

Product features:

- SIMPLEX superplastic insert
- White
- Soft
- Medium hard
- Very durable.
- Head diametre of D50mm for mounting in housing D40mm.
- Oversized contact surfaces prevent scratches through the housing

Application Areas

Driving of fittings in sensitive environments, positioning and adjusting of light workpieces, joiner's work, furniture assembly

Material

Insert

- Superplastic, white
- Medium hard
- Very durable
- Wear-resistant
